Pharmanex - BioPhotonic Scanner

CAROTENOIDS MEASURE OF CAROTENOIDS SCANNER SCORE SCANNER OPERATOR

The Pharmanex BioPhotonic Scanner is a unique tool that non-invasively measures carotenoids levels in skin tissues using the long-accepted science of Raman Spectroscopy. By simply placing the palm of your hand in front of the Scanner's low energy blue light, you will obtain your Skin Carotenoid Score (SCS) within seconds.

What are Carotenoids

Carotenoids are pigments found in fruits and vegetables that are primarily responsible for giving them their red, orange and yellow colors. The more colorful fruits and vegetables you eat, the more carotenoids you give to your body. The higher your SCS will be.

Beta Carotene

Lutein

Lycopene

How does the Scanner measure carotenoids?

The BioPhotonic Scanner uses the long-accepted science of Raman Spectroscopy. Discover how it works by viewing the video below.

What does your Scanner score mean?

You have been scanned?
The higher the concentration of carotenoids in your skin, the higher your Scanner score will be!

Depending on your dietary habits, supplementation and the capacity of your body to absorb carotenoids, your individual SCS may vary. Once you know your SCS, it is time to improve it by taking the following:

- Add on your diet by eating at least 5 to 10 servings of carotenoid-rich fruits and vegetables each day.
- Take care of yourself by adopting a healthy lifestyle.
- Supplement with the Scanner certified products, Uniphyl, JAL Eye Formula, Multivitamin and Collagen. They are certified to help provide your body with an adequate amount of carotenoids.

DISCOVER SCANNER CERTIFIED PRODUCTS

If after taking the Scanner certified products your SCS does not increase, your money will be refunded.

MONEY BACK GUARANTEE DETAILS

Compare scores with the Data Group tool.

Scanner Locator

Locate a Scanner Operator in your area.

Pharmanex is the exclusive owner of the patented BioPhotonic Scanner technology. The BioPhotonic Scanner provides detailed information about your Skin Carotenoid Score (SCS). Because acting on your diet may not be so easy to do in your daily life, supplementing carotenoids can contribute in a convenient way to ensure your carotenoid intake. So do not miss the chance to get scanned: scanning every 4 to 6 weeks is ideal to help you determine whether you are consuming an adequate amount of carotenoids. To learn what your Skin Carotenoid Score is, locate a Pharmanex Distributor nearest you by entering your city name or zip code to schedule your scan. If you wish to appear in the list of the Scanner Operators here below, please kindly contact your local market scanner coordinator.
